This project includes extensive renovation of the 2nd floor to convert the space into a 911 Backup Center for the Memphis Police Department. Radio Dispatch/call taker area consists of a new raised floor system, new generation PSAP consoles, and advanced audio visual and IT. The restoration of the building exterior includes a new roof. Break rooms, quiet rooms, and other employee centered areas were provided to increase productivity and employee retention. An entirely new plumbing, mechanical, and electrical system was designed to support the new call center. A new elevator was added to provide easier access for employees as well as access for ADA.
