Fleming Architects has provided the master plan, architectural and interior design services for all of the Houston Levee campus since 1997. The master plan has evolved over the years based on Briarcrest Christian Schools' rapid growth and changing needs. BCS is now a full K2-12th grade school with 2 gyms, 1,000 seat worship space, 2 cafeterias and kitchens, multiple entry lobbies. A well thought out master plan with wayfinding allows this massive campus to function efficiently. The Orchard Church uses portions of the facilities for church functions and fits well within the organization and layout of the campus. Fleming continues to work with BCS on future needs for their multi-use campus.
