This new two-story middle school accommodates grades 6, 7 and 8. Each grade has 5 classrooms and a business classroom modeled on corporate conference rooms. Each grade has a dedicated Learning Lounge with a tiered performance area for small groups, readings, etc. Also included is a science lab with an adjacent science classroom. The 17-foot tall art room has floor to ceiling windows on two sides and includes cabinets, sinks and various size cubbies for storage of art materials. Each grade has a corridor portal marked with a large numeral on a mesh metal background. Each grade has their own distinct color which is reflected on their portal, on the classroom accent walls and in their flooring. A large commons, serving as both entryway and cafeteria, features two glass garage doors opening to an exterior patio. The school site has the first community rugby field where inner-city charter schools in the Memphis Inner City Rugby program can play.
